

Charter Goal

To work collaboratively with businesses, community organisations, individuals and governments to promote and facilitate the sustainable development of South Gippsland and Gippsland.

Objectives

- To support and facilitate the development of local organisations and networks that aim to build and strengthen community resilience.
- To facilitate communication, linkage and common action between community groups and organisations in South Gippsland and in Gippsland and Victoria.
- To provide a forum for mutual support, cooperation and policy development and action on sustainable development in south Gippsland.
- To act as an advocate for sustainability issues and priorities for South Gippsland, at a local, State and National level.
- To maximise the available resources to facilitate sustainable development by working collaboratively to achieve the goals of the alliance.
- To work collaboratively with organisations, communities, businesses, networks of producers and consumers to promote sustainable farming and to develop the local food network South Gippsland.
- To support, promote and facilitate green businesses, social enterprises and green business clusters that provide local employment, reduce greenhouse gas emission and reduce imports by promoting local production within the bioregion.
- To promote public education and learning that reduces ecological footprint and reduces greenhouse gas emissions.
- To work collaboratively with organisations, businesses, networks to facilitate the development of distributed renewable energy systems owned by the community and locally owned small businesses and cooperatives in partnership.
- To promote a dialogue and appropriate action within the community to address the challenges of climate change.
- To promote waste minimization, composting and closed loop production systems
- To promote the protection and restoration of biodiversity and natural services within south Gippsland.
