

Resource efficiency through innovation

Seminar invitation
Wednesday 21 May 2014

Do you want to carry out efficiency upgrades to your plant with no upfront capital cost?

Join fellow industry professionals to gain insight and discuss examples of energy recovery and resource efficiency projects in your industry at this targeted Gippsland industry seminar.

Speaker topics will focus on practical opportunities in:

- Resource efficiency gains
- Embodied energy recovery
- Innovative technologies to increase efficiency
- Supply chain and logistics gains

We look forward to seeing you there.
